# Political Party Structure

- Political Party
  - A political party is made up of politicians, individuals or teams of activists and voters whose goal is to win control of government.

# Political Party Structure

A political party is an empty vessel, which has meaning only through the principles and actions of those who choose to use it for their own purposes.

Without working through a political party, conservatives will never implement our principles in the policy-making process.

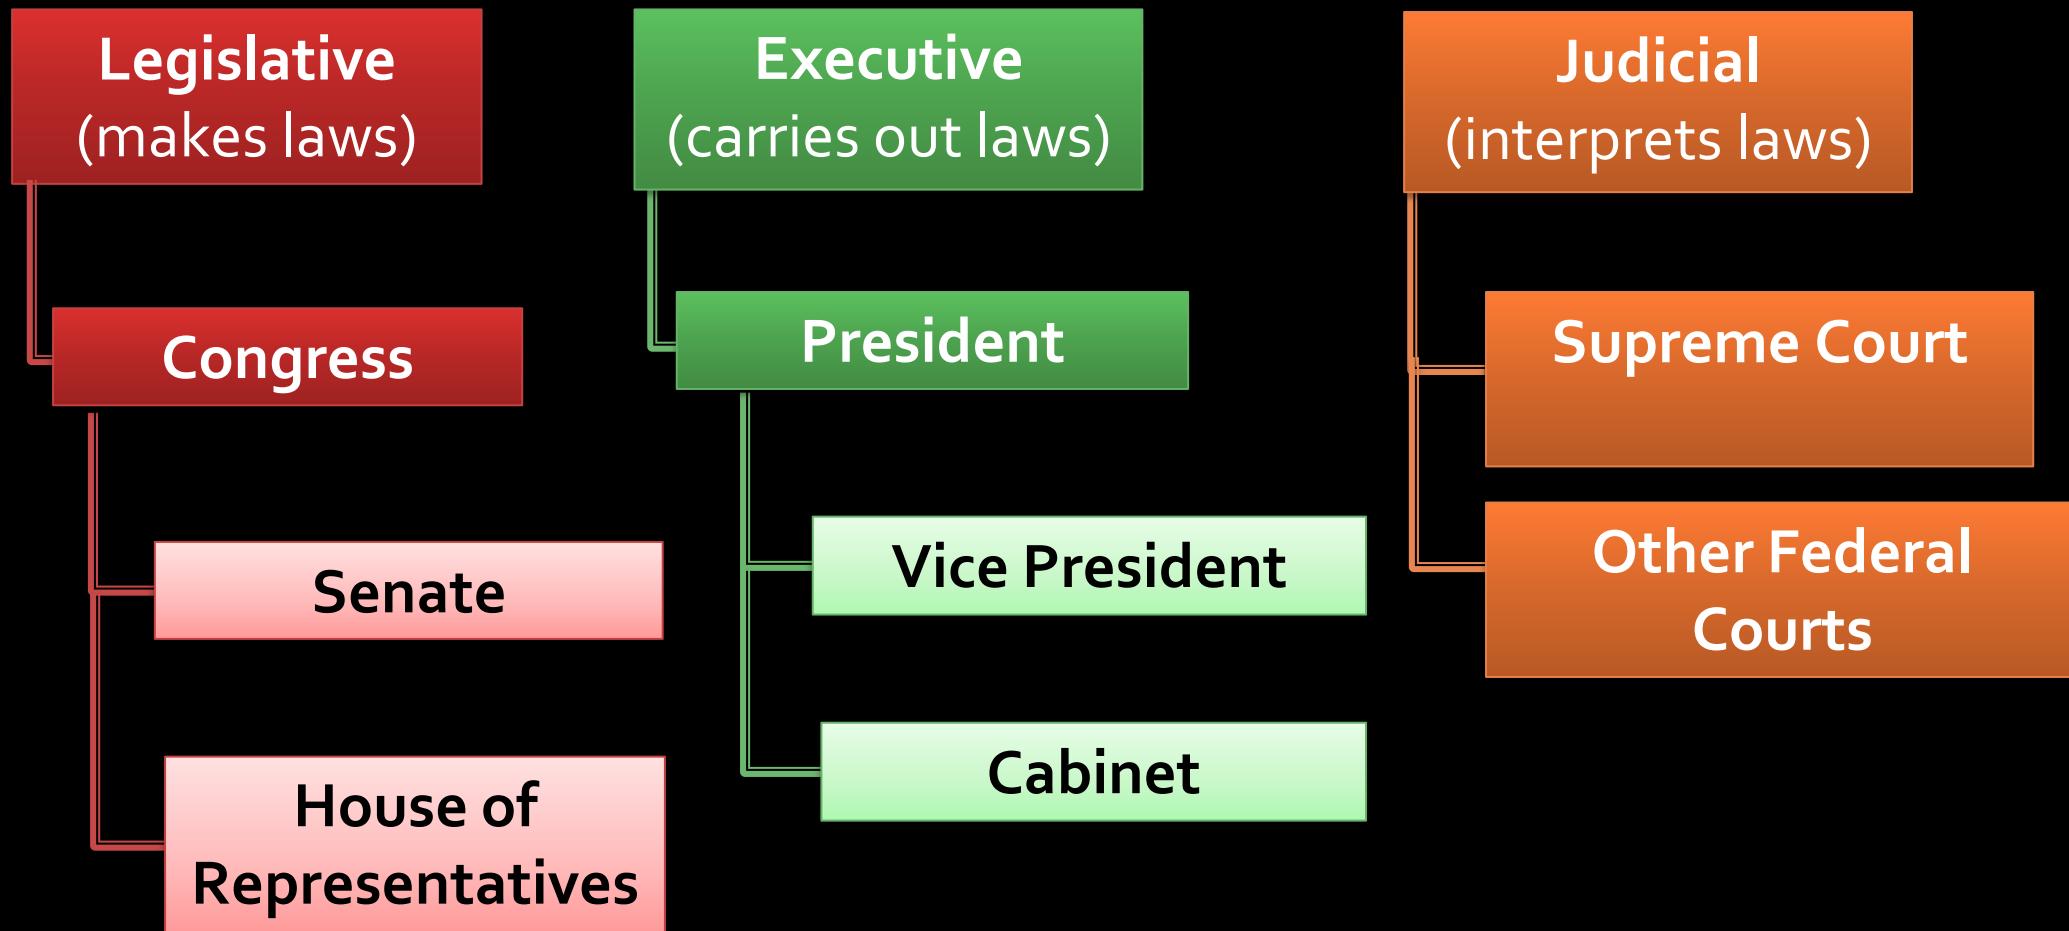

—Morton Blackwell

*President of the Leadership Institute*

# Political Party Structure

  - The United States shall guarantee to every State in this Union a Republican Form of Government
  - Republican Form of Government
